# Turn Coin Handling Into Profit

# SCAN COIN

Today's increasingly competitive banking market requires an efficient and secure coin management for serving both retailers and private customers. The high costs involved in managing coins demand optimized and secure solutions. Explore true management with our new solution CDS-9R. Get increased service and security for your customers through the world's first complete coin handling solution for self-service areas.

## Coin Handling - All In One

The CDS-9R is a completely new banking solution for coin deposit as well as coin dispense. Retailers and private customers in need of bulk coin deposits can easily make quick and secure deposits. At the same time CDS-9R is the perfect option for retailers in need of a daily float. The machine dispenses all denominations in any mix or split the user prefers.

## Optimize Cost Control with Recycling

Taking control of the cash ensuring higher revenue out of cost and time saving will enable you to meet the customer with the best service. The two-in-one self-service coin machine is a convenient one-stop-shop for both bulk coin deposit and coin dispense. The recycling technology optimizes the need for replenishing the machine and thus minimize the CIT costs. CDS-9R is designed for quick and easy filling or emptying when needed. Quick return of investment through dramatically improved cash management at all levels.

## The Easiest Process Can be the Most Revolutionary

We believe that handling cash should not be a time consuming issue, it should be a fast process with minimal human involvement. Transform your customers' coin handling into complete automation. With CDS-9R there will be no more needs of direct coin roll dispensers and separate coin deposit machines.

## Turn Cash into Real Value

Our cash solutions are powerful automators for your back office operations. Make this smart solution part of your daily operations and decision making, instead of spending hours on administration and counting. This ensures a quick return on investment through dramatically improved cash management.

## We'll Find Your Perfect Solution

- ☑ Determine your cash management requirements to meet key business metrics
- ☑ Select appropriate hardware configurations for your operating environment
- ☑ Mix and match the hardware to create the perfect solution

## Efficiently Cycle Cash All Through Your Business

The steady flow of cash into your back office needs to be counted, allocated and secured quickly and efficiently. With the cash solution you take control of your cash through an efficient cash cycle in all areas of your business, from internal cash handling to CIT operations. This ensures both time and cost savings, as well as an improved customer service.

## Superior Financial and Operational Control

CashComplete™ Connect is the ultimate solution for superior financial and operational control of your cash. The Software allows access to data by local departments and from remote locations. The CashComplete™ Connect software can be used for central monitoring and connects with external store systems for even higher efficiency. CashComplete™ Connect provides a common experience across all client locations. Our software solutions are scalable, allowing you to gain full control of your cash management operations.

## CashComplete™ Connect

The centralized platform receives information from all cash handling devices, such as transactions, content and operational status. Cash handling devices from other vendors can also be integrated in the CashComplete™ Connect software.

The machine is successfully tested by ECB in accordance with Article 6 (1) of Regulation (EC) No 1338/2001
